

AH 100 *Mission Statement*

The Animal House 100 Network is internet-based community based and volunteer run radio station. We seek to educate, inspire, and entertain through programming that reflects the diversity of a global community. We seek to provide a space for media access to our wide range of talent and diversity through comedy, music and enlightenment. We aim to serve with particular regard for those overlooked or under-represented by other media and to provide for the exchange of cultural and intellectual ideas and music and entertainment. Our on-air personalities will entertain you with music, news, events, and more!

We intend to grow our core listener base to new heights through not only quality entertainment, but through an enhanced sense of fan loyalty. We intend to firmly establish the "AH100 Brand" by enforcing quality, consistency and a friendly atmosphere while providing top-notch entertainment.

Our chat rooms provided by our partner, Stickam™ provide a comfortable medium to interact with our hosts and other listeners. Our staff, hosts and channel regular listeners are dedicated to provide a community that welcomes new listeners, clients and friends.

We promise to value each and every visitor to our channel. We have established this outline of our goals and values to ensure that every host, fan or occasional viewer is treated as a valued member of our community. We follow Stickam™ terms and conditions as well as our own core values to moderate our channels.

The Animal House 100 Network continues to grow since it's creation in November 2007. With over 2.2 million views to date we have far surpassed expectations. We intend to continue our growth throughout 2009 with our well established goals.

We seek talented individuals to help us better the network for our community. If you feel that you possess these skills and have the dedication to come aboard the AH100 Team, please contact our staff.
